

## 2014 Spring Report for PHI3633 Biomedical Ethics PHI (Christine Wieseler)

### USF Student Assessment of Instruction

Project Audience 38

Responses Received 32

Response Ratio 84%

#### Subject Details

<b>Name</b>	PHI3633 Biomedical Ethics
<b>Section</b>	003
<b>College</b>	AS
<b>CollegeName</b>	Arts and Sciences
<b>DepartmentName</b>	Philosophy
<b>Term</b>	201401
<b>First Name</b>	Christine
<b>Last Name</b>	Wieseler

**Creation Date** Mon, May 12, 2014

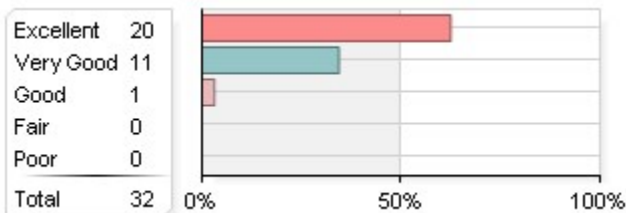

## Section 1. Frequency Statistics

The charts below provide statistics and the response breakdown of how students answered each question.

Select your rating of the following statements as pertaining to **Christine Wieseler**.

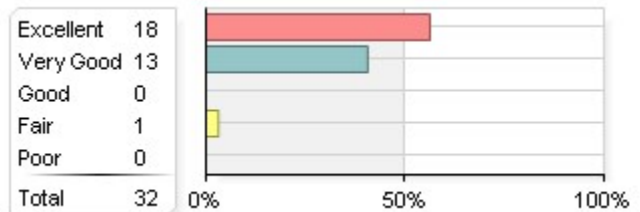

Competency Statistics	Value
Mean	4.5
Median	5.0
Mode	5
Standard Deviation	+/-0.7

1. Description of Course Objectives and Assignments

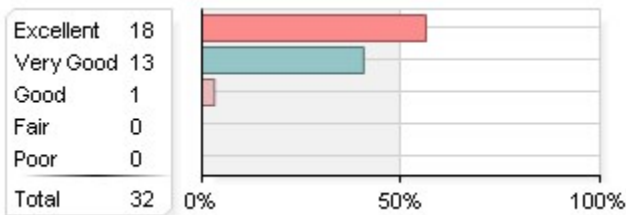

Statistics	Value
Mean	4.6
Median	5.0
Mode	5
Standard Deviation	+/-0.6

2. Communication of Ideas and Information

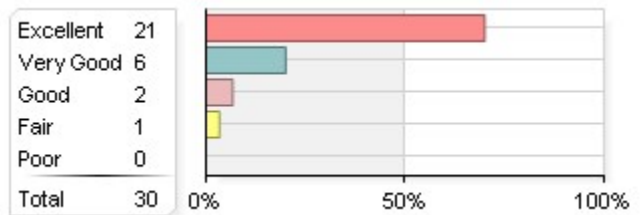

Statistics	Value
Mean	4.5
Median	5.0
Mode	5
Standard Deviation	+/-0.7

3. Expression of Expectations for Performance

Statistics	Value
Mean	4.5
Median	5.0
Mode	5
Standard Deviation	+/-0.6

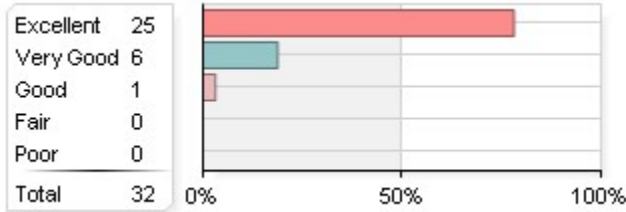

4. Availability to Assist Students In or Out of Class

Statistics	Value
Mean	4.6
Median	5.0
Mode	5
Standard Deviation	+/-0.8

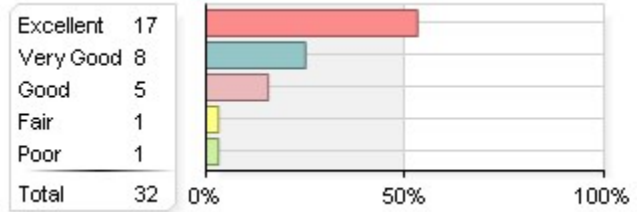

Select your rating of the following statements as pertaining to **Christine Wieseler**.  
(continued)

5. Respect and Concern for Students

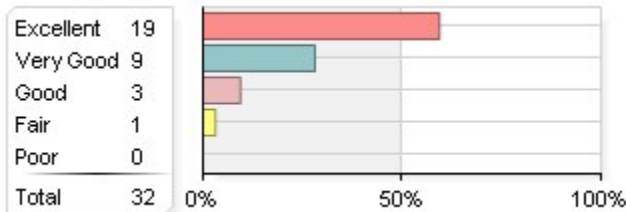

Statistics	Value
Mean	4.8
Median	5.0
Mode	5
Standard Deviation	+/-0.5

6. Stimulation of Interest in the Course

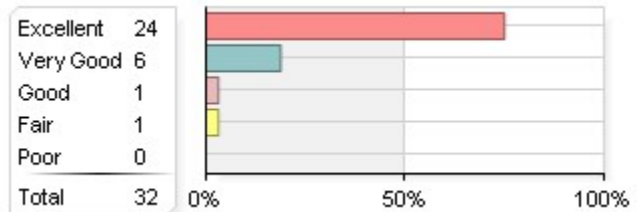

Statistics	Value
Mean	4.2
Median	5.0
Mode	5
Standard Deviation	+/-1.0

7. Facilitation of Learning

Statistics	Value
Mean	4.4
Median	5.0
Mode	5
Standard Deviation	+/-0.8

8. Overall Rating of the Instructor

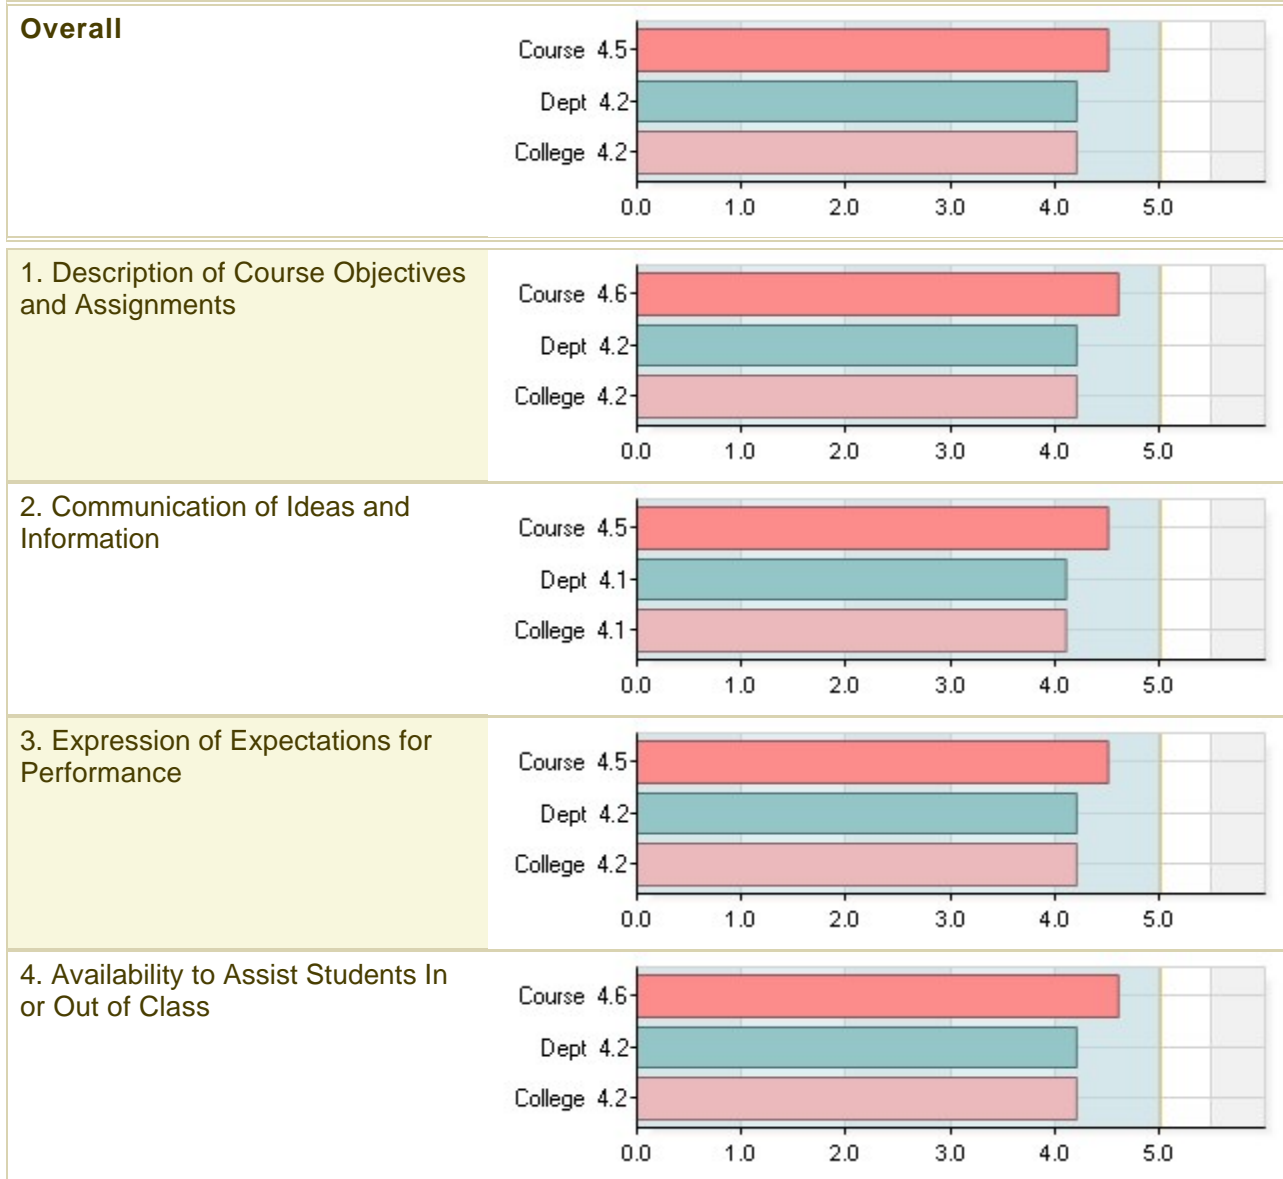

Statistics	Value
Mean	4.7
Median	5.0
Mode	5
Standard Deviation	+/-0.7

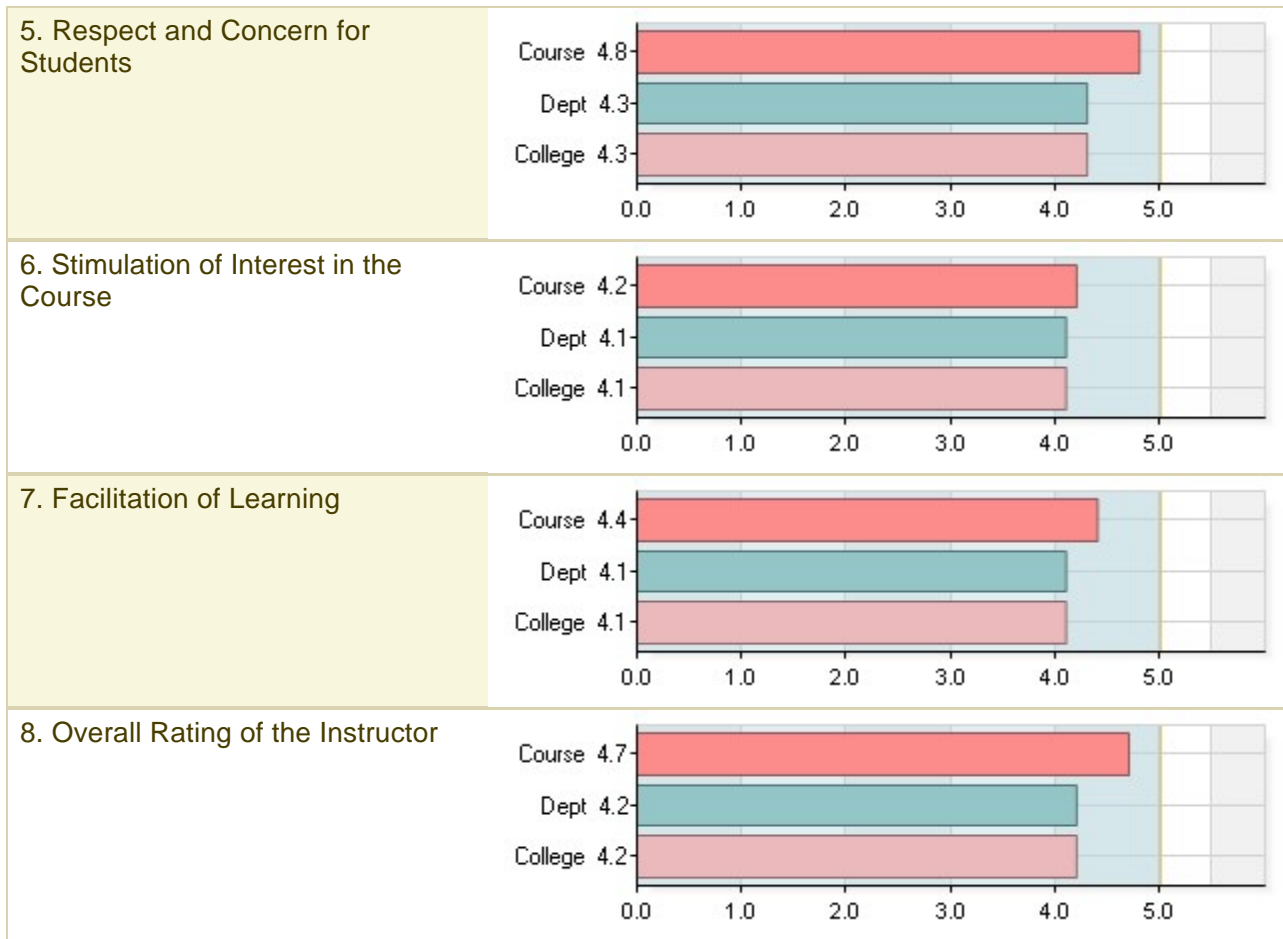

## Section 2. Comparative Section

The charts below compare how the students in your course rated you as compared to all of the instructors in the department, and all of the instructors in the college.

Select your rating of the following statements as pertaining to **Christine Wieseler**.

### Section 3. Comments

The following two open-ended questions are responses from your students pertaining to you, and the course.

Please provide any additional comments with respect to **Christine Wieseler**.

Comment
Professor Wieseler did an excellent job at making the material interesting and really getting the students involved with the lectures, which helped tremendously on the tests. She was well versed with everything we discussed in class and I really enjoyed the class as a whole. Her study questions really helped and her giving us the option to do a study guide for extra credit gave us the incentive to do a study guide and ultimately became a double positive because we received extra credit and we did excellent on the tests!
Great Professor really enjoyed this class, opened up im eyes to a new way of thinking about these concepts. this is a class that will stick with me throughout my career
Mrs Christine is a very good teacher! My only complaint is that when we would discuss controversial issues, she made it obvious when she didn't agree with your opinion.
Great class! I really enjoyed your class and the way you provided the information! Also the cupcakes were delicious :) Thanks for a great semester!
Would not have learned as much as I did without this professor. She is awesome at what she does and I is so enthusiastic about what she is teaching.
Very good in her field of study. I think she should be more assertive in class participation.
Great teacher very enthusiastic about the class and always did a great job helping us understand.
Great professor, made herself available to assist students outside of class.
I just wish she would be a little more unbiased when it comes to issues at hand, other than that the class was structured well and was interesting.
This class was extremely interesting and the reading material allowed me to further my knowledge about these select topics. I really liked Ms. Wieseler as a professor because she allows discussion, and she's very knowledgeable and passionate about this class and the topics brought up in it.
I absolutely love her. I think she is an amazing professor and cares about her students. Definitely one of my favorite professors this semester.
Ms. Wieseler made the material very interesting and I feel that I learned a lot this semester. Sometimes, the topics did not flow very well into each other; for example, I had trouble relating the discussions of sex and gender to stand alone.
She made the class interesting and fun, even though the potential for this course is quite boring, she definitely stimulated and facilitated all of the student's learning in this course. She deserves congratulations.
Absolutely great teacher, explained things very well and always answered our questions, one of the best teachers i've had yet.
She makes the class very interesting by engaging the whole the in discourse. I think everyone did learn a lot in class as did I. Definitely would recommend her Biomedical Ethics class.
The course was great as whole! Enjoyed going in depth of the ethically issues at hand. Would have really appreciated more slide show presentations. Thank you for your teachings!
The professor was great. She made the class interesting and easier to understand the material by giving out worksheets related to the readings. Her extra credit was also very beneficial to the tests. Overall great professor!
Very motivated to help the class discuss and understand the topic. Very knowledgeable on the philosophy of the arguments which helps understand the nuances of the arguments.
She should provide more opportunities to understand the readings.. Like more questions to answer that help outline the readings
Overall Christine us an excellent instructor she facilitated great conversation in class and her teaching styles varied from poerpoints to lectures and worksheets which allowed her class to jot be mundane. I learned alot in class and enjoyed her as an instructor.

She made the class very interesting. Ethics can be a dull subject for many but she made it understandable and interesting with her classroom/discussion style class.

Professor Wieseler is an excellent instructor that is very knowledgeable about the subject she teaches and her enthusiasm shows through when she teaches.

I like that class discussion is encouraged because with some of the topics in the class i got a better understanding of things hearing them discussed with the students since we are not experts in the subjects it helped me better understand some things.

She genuinely wants her students to understand and grasp the concepts of the readings instead of just assigning busy work she encourages our understanding of the material.

The grading rubrics for her papers really helped keep me focused on the topic and helped me better organize my information on subjects that are tough to write papers on.

The controversial issues were handled great, she made sure all viewpoints were respected in class and no students felt uncomfortable speaking in class.

She is a great instructor and makes learning about bio ethics interesting

I really enjoyed the course. This course has made me think about things in a different perspective. The class readings were sometimes difficult but explained thoroughly in class. I would suggest more power points, I am a Visual learner and I feel like those really helped me. The study guides are also a big help.

Very pleasant teacher. I enjoyed this course thoroughly. I had started the same course last fall but dropped the course due to the teacher. I understood the material but her form of testing and grading reflected poorly on my exams. With Christine, with the same topics and much better essay formats and true and false questions I received the As and Bs I knew I was capable of earning. It was such a relief to know this material being taught by her could be made sensible to me.

**Please provide any additional comments with respect to PHI3633 Biomedical Ethics.**

Comment
It can be a greta class if you have the right professor.
Awesome course, I learned a lot and it was very interesting.
The class is essential for all fields of sciences but a lot of the readings have been done in other ethics classes.
I loved it.
This was my most favorite class of the semester. I enjoyed learning about the material and I think Christine made it interesting and fun to learn.
Good class that opened my mind up and brought up new perspectives for me to consider.
I enjoyed this class. It opened my eyes to a different side of ethics. Being my first ethics class, I would enjoy taking another one.
Prior students expressed different class dynamics than what I experienced. A suggestion, include a medical professional as a guest lecturer on a given topic that he or she has experience in. This would provide more context to the material. It would also stimulate interest
Difficult class but very interesting and the teacher helped us understand
This course is a very informative course that allows you to view the different perspectives there is in biomedical ethics. It is a challenging course but not impossible. If you keep up with the readings and engage in discussions, you will be able to understand all the ideas and concepts being taught in this course.
Great class! My favorite so far at USF.
Biomedical ethics is a great class that taught me about ethics of care
Great topics. Learned a few new topics and will use this knowledge in my healthcare career.
